McQuillan Group recognise that the environment is a central business concern and that our waste collection and transfer facilities, quarrying, road surfacing, demolition and associated activities, products and services have potential Environmental Impacts. We are committed to continual improvement of our environmental performance and aim to minimise our impact on the environment by making it an integral and fundamental part of our business.

Accordingly, we have adopted the following policy that provides a framework for setting and reviewing our environmental objectives and targets.

Specifically we will:

- ❖ Ensure compliance with existing and future environmental legislation, and other requirements to which we subscribe notably, our duties under Waste Management legislation and maintenance of our registration as waste carriers.
- ❖ Liase with relevant external bodies (statutory and non-statutory) at all levels and work with our own employees to maintain a program of continual improvement of our environmental performance.
- ❖ Identify and seek to reduce the significant environmental aspects of our business and to prevent pollution.
- ❖ Optimise the use of resources and ensure we use processes, techniques, material and products that avoid, reduce or control pollution.
- ❖ We will recover & recycle materials where possible and justifiable.
- ❖ Work with our suppliers, sub-contractors and customers to improve our overall environmental performance and wherever feasible influence them to do likewise.
- ❖ Require our employees to assist in the implementation of this policy and to work with due consideration and provide appropriate training and supervision to ensure this.
- ❖ Establish and maintain an Environmental Management System compliant with requirements of ISO14001 to cover all activities at our sites.

The Relevant Company Director has overall responsibility for ensuring that the company policies and procedures are implemented and maintained.
